

# Cuyler Food Machinery Stock Inventory

Accumulation	S&F 48" dia. stainless steel accumulation disk, model 4800, stainless steel top disk, painted frame, 1/3 HP gearhead motor drive, s/s round bar outer guide (Stock #1628)
Agitator	Lightnin gear reduced agitator drive, spec 36R116W41561, horse power 3.5, 230/460 vacuum 10/5 amps, 1740 RPM, frame 18ZYZ, code P service factor 1.15 des: A, class F, Nema nom DFF 85.5%, PF: 78% rating 40C AHB-CONT, serial number F0503313484, bolt hole centers 11" x 11", inverter ready-brand new in box (Stock #1771)
Bag Compactor	Vac-u-Max all stainless steel heavy duty bag compactor, pneumatic operation and control with top mounted cylinder, 30" stroke, 24" x 24" x 28" deep, hinged door, 17" x 7" product feed opening, controls, up to 150 bag capacity, 15 second cycle time (Stock #1787)
Bag Dump	SPECS PENDING - Vac-u-max bag dump station, model 104121, door opening 40" wide x 24" high 1 1/2, all stainless steel, top flange, 16" x 36, magnetic grate, interior dust baffle, integrated dust collector (Stock # 1760A)
Bag Dump	SPECS PENDING - Vac-u-max bag dump station, model 104121, door opening 40" wide x 24" high 1 1/2, all stainless steel, top flange, 16" x 36", magnetic grate, interior dust baffle, integrated dust collector (Stock #1760B)
Blancher	Reitz screw type water blancher, "TLW Series" model TL-36-K2215, 36" diameter x 15' long, all stainless steel, spring loaded paddle - pusher discharge with drain screen and re-circulation pump, hinged covers, direct steam injection with low velocity steam diffusers, approx. 50 cu. Ft. volumetric capacity to centerline of shaft, water volum approx. 117 cu. Ft. to top of screw, very good condition (Stock #1823)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Blancher  
SOLD!!! Hughes all stainless steel hot water rotary blancher, 48" dia. X 12' long drum, counter weighted hinged cover, all stainless steel construction, hopper infeed, chute discharge, manual clean-outs in bottom, exhaust vent over discharge, temperature gauge, 4" butterfly discharge valve in bottom end, 3 HP 3/60/230/460 VAC gearhead motor drive, 7 RPM final gearbox RPM, 5 to 1 chain drive reduction, 1.4 RPM drum speed, USDA removable drum screens with 1/16" dia. round hole perforations, s/s stub shafts, very good condition (Stock #1642)
- Blancher  
SOLD!!! Hughes all stainless steel hot water rotary blancher, 48" dia. X 8' long drum, counter weighted hinged cover, all stainless steel construction, hopper infeed, chute discharge, manual clean-outs in bottom, exhaust vent over discharge, temperature gauge, 4" butterfly discharge valve in bottom end, 2 HP 3/60/230/460 VAC gearhead motor drive, 7 RPM final gearbox RPM, 5 to 1 chain drive reduction, 1.4 RPM drum speed, USDA removable drum screens with 1/16" dia. round hole perforations, s/s stub shafts, very good condition (Stock #1643)
- Blancher  
Hughes hot water rotary blancher, 48" dia. reel x 12' long, stainless steel with painted frame, hopper infeed, chute discharge, 3/32nd inch round hole perforations, (3) inspection/clean-out doors each side, Reeves variable speed drive (Stock #1589)
- Blender/Mixer  
Rietz twin shaft ribbon blender, model RS-34-K5410, serial number RS81001076, all stainless steel construction, 10,000 pound capacity, (2) 34" diameter ribbons, single ribbons with 1/2" x 2.5" ribbon blades, 70" wide x 10' long inside, (2) 30 HP 3/60/230/460 VAC gear reduced motor drive, chain drive, (2) pneumatic discharge doors with controls, 3" diameter stub shafts, (4) pick eyes, top safety grate, ultra heavy duty mixer in good condition (Stock # 1409)
- The Rietz twin action Mixer-Blender handles all types of "hard to mix" materials such as meat mixes, cheese, etc. 2 discharge doors provide ultra-fast product discharge.
- Blender/Mixer  
HKM stainless steel light duty paddle blender, single horizontal shaft, requires approx. 1 HP c-face motor for existing gear reduced motor drive, interior paddle assembly with end (bulkhead) scrapers, bottom slide outlet with air cylinder, all stainless steel construction (Stock #1724)
- Blender/Mixer  
Rietz twin shaft ribbon blender, model RS-18-K5405, serial number RS-760144, all stainless steel construction, 1,000 pound capacity, (2) 18" diameter ribbons, single ribbons 2" wide x 7/16" thick, 36.5" wide x 5' long inside, (2) 5 HP 3/60/230/460 VAC gear reduced motor drives w/stainless steel cover, belt drive, 4" shaft, 7" s/s extension on top of drum, (2) pneumatic discharge doors with controls, discharge height approximately 39", overall length 88", good condition. (Stock # 1639)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Blender/Mixer Millerbernd paddle blender, 83.5" long x 57" wide x 48" deep, (to top of paddles), (140 cu.ft./1000 gallon capacity), top enclosure, all stainless steel construction, 3" wide x 3/4" thick paddles, (10) spaced at 8", 4" diameter solid stainless steel shaft, 2" stainless steel square tube permanent breaker bars, 18" diameter manway in top cover, U bottom, 4" Tri-clamp bottom end liquid discharge, Dodge gear reducer, no motor, spring loaded sanitary Teflon seals, various Tri-clamp inlets in top cover, 87" high x 67" wide x 12' long in overall, good condition (Inv. # 000603)
- Blender/Mixer Marion mixer, model HPS-2748, serial number 93055, 15 cu. ft. capacity, dimple jacketed at 125 PSI, new 1993, NB Code # 141, up to 30 PSI internal mixer pressure with gauge, Teflon seals, outboard bearings, 3-7/16" diameter shaft, hinged/ counterweighted gasketed top cover with 6 hold down lugs, safety shut-off switch for cover, 4 curved paddles, welded construction, chamber is 27" diameter x 48" long, top opening is 14" wide x 48" long, top & side threaded pipe infeed provisions, stainless steel leg extensions, 6" center bottom outlet with manual butterfly valve, 7.5 HP 3/230/460 volt motor with Dodge shaft mount gear reducer, approximately 21 RPM shaft speed, excellent condition (Inv. # 001006)
- Blender/Mixer Aaron stainless steel single shaft double ribbon blender, approx. 72 cu. Ft., 40" wide x 8' long, 1/2" x 2" inner and outer ribbons, 8" diameter center bottom outlet with butterfly valve, all stainless steel product contact parts, painted frame, 20 HP motor drive 460 Volt three phase, good condition (Stock #1412)
- Blender/Mixer Grace paddle blender, model 30, serial number 348, 60" long x 42" deep x 40" wide, all stainless steel, cold water jacketed, 5 HP 3/60/230/460 volt motor with gear reducer, air lift cylinder with air pump, no cover, (1) 4" tri-clamp bottom discharge, (3) 2" bottom discharge fittings, fair condition (Inv. # JG0850)
- Blender/Mixer Aaron single shaft s/s double ribbon blender, 26" x 65" x 26" (to top of ribbon), s/s hinged cover, 26" diameter sprocket, no motor drive, outer ribbon 1/4" x 1 3/4", inner ribbon 1/4" x 2", 6" center bottom discharge w/manual butterfly valve, painted exterior frame, good condition (Stock #1633)
- Blender/Mixer Aaron stainless steel single shaft double ribbon blender, approx. 72 cu. Ft., 40" wide x 8' long, 1/2" x 2" inner and outer ribbons, 8" diameter center bottom outlet with butterfly valve, all stainless steel product contact parts, painted frame, 20 HP motor drive 460 Volt three phase, good condition (Stock #1413)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Blender/Mixer

Rietz twin shaft ribbon blender, model RS-18-K5405, serial number RS-760167, all stainless steel construction, 1,000 pound capacity, (2) 18" diameter ribbons, single ribbons 2" wide x 7/16" thick, 36.5" wide x 5' long inside, (2) 5 HP 3/60/230/460 VAC gear reduced motor drives w/stainless steel cover, belt drive, 4" shaft, 7" s/s extension on top of drum, (2) pneumatic discharge doors with controls, discharge height approximately 39", overall length 88", good condition. (Stock # 1640)

Bundler

EDL "Flightbar" automatic shrink bundler packaging system, model "system 2000", serial number 40111, consisting of model 600 F/ BASS twin stream (2 lane) flightbar automatic sleeve sealing machine, s/n 31936, with integral collator, 18" wide Intralox feed conveyor x 20' long, 6 adjustable lane guides, includes Shrink Tunnel model 24/15, s/n 4011, 24" wide Intralox conveyor x 8' long, 14" high opening, 30 cycles per minute, uses 1.25 - 4.0 mil low density polyethylene up to 22" wide, Texas Instruments 305 PLC controller, previously used to bundle/shrink wrap 2 sets of six 8 oz. water bottles in a 2x3 pattern, excellent condition (Inv. # 001349)

EDL's Flightbar offers total flexibility and product control for trayed or tray-less collations of consumer products.

Random pack sizes can be wrapped without a changeover, and the flight bars gently guide unstable products to ensure smooth product transfer during the sealing process. Bundles can be produced with tension for a tight wrap, or without tension for a sleeve wrap. Tight wraps are ideal for dense granular products in bags such as flour, sugar, rice, some pastas and candies, etc., as well as soft, pliable products such as bags of socks, gloves, washcloths, etc. The list of products is limitless for bundling with a combination of print registered film and the tight wrap method.

Possible Flightbar applications include collations of: Unstable Products, Pharmaceuticals, Aerosols, Food/Beverages (bottles, jars, cartons, tubs, cans), Unsupported Products, Frozen Food (cartons or tubs),

Standard Features include: Total product control and support, Texas Instruments PLC, Rugged construction, Accepts random pack sizes, Touch-Screen Control Panel for Man-to-Machine Interfacing, Allen Bradley control gear, Inline operation for added product stability.

Specifications include: Operator Controls: 22.5mm Push Buttons, Flight Bar Inverter (VFD): Allen Bradley, Photoelectric: Allen Bradley, Pneumatics: Norgren, Mac, Motors: SEW Eurodrive, Baldor; Control Valves: Mac, Frame Wiring: 480v, Framework: Mild steel hollow box section with welded end caps, Shrink Tunnel Skins: Mild Steel, Machine Internal Parts: Painted or plated mild steel, Guard Doors: Mild steel box section frame around the top and sides of the door, mild steel round section or box at 45° on the bottom to prevent product build-up. Glazed upper and lower sections

**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Busse Busse unloader, model BD-3, serial number 20, 36" wide x 60" mesh belt single filer with drive, for unloading Busse style round retort baskets, includes in-floor ram jack, power sweep with hydraulic power pack and controls, fair condition (Inv. # 001313)
- Busse Busse retort crate unloader, model BD3-H, serial number 16, set up for square baskets (60" retorts), hydraulic sweep arm, 44" wide x 60" long mesh belt accumulator, 3 disk discharge, controls, no hydraulic power pack, in-floor ram jack, fair condition (Inv. # CB0693)
- Busse Busse retort crate unloader for horizontal retort baskets, model BD3-H, s/n 59, hydraulic sweep arm, mesh belt accumulating conveyor with drive, self contained hydraulic system includes model S-580 hydraulic hoist, control levers for sweep arm and jack, does not include disk discharge assembly, fair to good condition (Inv. # 000499)
- Busse Busse square retort baskets for horizontal retorts, castors, moveable bottoms, 40-1/2" x 36-1/2" x 36-1/4" deep inside dimensions; 45" high overall with wheels; wheels are 23-1/4" on center, good condition, price: \$400 each (Inv. # 001352)
- Busse Busse round retort baskets, perforated and slatted with Busse design false bottoms, 1.25" bale dia., 37" O.D., 35.75" I.D., 21" high lower lip, 23" high to upper lip, 23.25" to top of bale, good condition, Price: US \$250 each for perforated and US \$300 each for slatted (Inv. # 001255)
- Cartoner Cartoner, pick and place cartoner for single serve jam and jelly trays into carton, late model, no tag for manufacturer, model or serial number, excellent condition (Stock #1468)

**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Case Inspection	Filtec/ Industrial Dynamics filled case inspection machine, model C1-2GV - FILTEC, serial number 75009. This gamma based case inspection unit inspects open and sealed cases and offers the widest range of adjustment and available options for multiple products. Dual tier capability. Liquid and dry product capable. Various options are available for inspection of the case itself. The CI-2GV Case Inspector offers the ultimate in flexibility for general packaging applications. The CI-2GV has the widest range of adjustments and available options to accommodate multiple package types. Options include: Missing Container Detection, Broken Container Detection, Gross Underfill/Leaker Detection, Detects Residual Glass Bottles in Open Cases, Pharmaceutical Bundles, Cigarette Cartons, wide range of adjustments; No weigh table or case transfers, No load cells and tare weights to calibrate, Drops over existing line without modifications to conveyors, Detects individual shortfills regardless of the weights of the other containers in the case, Detects broken or leaking bottles even if contents are retained in the case. The CI-2GV utilizes a low energy gamma generator that is registered with government agencies and approved for use in food, beverage, pharmaceutical, and all other general packaging applications. FILTEC'S Video Display Electronics (VDE) represents another step forward in the series of simplified operator interfaces. Consisting of only four arrow keys and a "*" (select/enter) key, the VDE eliminates confusing text abbreviations, symbols, hexadecimal codes, and lightpens, excellent condition (Inv. # 001103)
Case loader	Fallas carton erector/case filler, all stainless steel frame, Lexan doors and enclosures, safety switched, Emerson servo, missing control components with separate feed conveyor (Stock #1665)
Caser	FMC/Simplimatic Non-Shock caser, model 7, late model, set for 300/303, includes Intralox 4 lane can infeed conveyor, case let down arm, controls (Stock #1609)
Caser	Vega case packer, end load type, set up for 300 x 512 & 401 x 800, 5' x 11' floor space, (Inv. # 001402)
Caser	Change parts for FMC 300, 303, 401, 404 for model 5 or 6 (Inv. # 000349)
Caser taper	Case taper mandrel
Chiller	Haskris water chiller, model R0150, serial number H-A1092, dual 1/2 HP 230/115 /1 pumps, 1/2" in & out, 10 gallon, water supply reservoir tank, fla 14.9, R-12, 2 dual sets of temperature gauges, very good condition (Inv. # 001171)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Chopper	FMC tomato chopper, model TC-40, 4" discharge, inspection door on discharge, hopper infeed, all s/s product contact parts, 20 HP 3/60/230 volt motor, chopper blade rotation speed 600 RPM, capacity up to 35 ton/hr., reconditioned (Inv. #001086)
Control Panels	Lot control panels (Stock #1774)
Conveyor	SOLD!!! Fran Rica roller inspection table, all stainless steel dewatering, 48" wide x 18' long, 2" diameter rollers with 3/8" spacing, Eurodrive variable speed motor drives, good condition (Inv. # 001092)
Conveyor	FMC stainless steel frame table top chain conveyor, 3.5" wide Delran plastic chain, gear reducer, 1/3 HP TEFC motor drive, 86" long shaft to shaft, good condition (Stock #1563)
Conveyor	Arrowhead stainless steel conveyor frame, (1) 7" x 40" with drive, (1) 48" x 4 1/4" stainless steel "S" curve, new (Stock #1677)
Conveyor	HOLD FOR STOCK CHECK - Arrowhead belt conveyor, 10" x 14' long, stainless steel frame, no motor, adjustable legs (Stock #1658A)
Conveyor	Belt conveyor, stainless steel fine mesh, 24" wide x 12' long, stainless steel and mild steel frame (stock # 1821)
Conveyor	Arrowhead belt conveyor, 10" wide x 76" long, stainless steel frame, 1/2 HP gearhead motor drive (Stock #1658)
Conveyor	Arrowhead stainless steel conveyor, 7-1/2" wide x 10' center section and 11' idler section, no drive section, two new lengths Intralox belts on pallet, Teflon wear strips, Teflon side guides (Stock #1660)
Conveyor	Intralox belt conveyor 24" x 6' long 48" high belt , all stainless steel frame, 1/2 horse power GH chute infeed (Stock # 1817)
Conveyor	Arrowhead belt conveyor, stainless steel frame, 16" x 9' long, Intralox belting, stainless steel side guides, 1 HP. gearhead motor, castors (Stock #1659)
Conveyor Scale	Roller conveyor scale with stainless steel programmable controller - Ann Arbor Technoworks model INX6000 (Stock #1775)

**Cuyler Food Machinery - Immediate Shipment!**

Cooling Tower	BAC cooling tower, model AT-120H, serial number 91-100334, belt B-70, 4' wide x 12' long x 9' high, 4 fan
Cooling Tower	Evapco cooling tower, single fan, model AT 4-64, serial number 867822, 6' x 4' x 10'
Cooling Tower	BAC cooling tower, model AT-120H, serial number 88100683, belt B-70, 4' wide x 12' long x 9' high, 4 fan
Corn Cutter	SOLD!!! FMC model 3AR corn cutters, offered and priced as a lot of 3 units without stands or cutting heads (stock #1625)
Corn Cutter	SOLD!!! FMC corn cutter, model SC-120, stainless steel frame and feed conveyor, does not include stand or cutting heads (Stock #1624)
Crane	(Hold for BRF) Spanco "Met-Track" overhead crane/gantry, 4000 pound capacity, disassembled, components labeled as follows: (a) 23' long with 3 1/2" square tubes; (b) 24' long with 3 1/2" square tubes; (c) 13' long with 5" square tubes; (d) 13' long with 5" square tubes; (e) 13' long with 5" square tubes; (f) 13' long with 5" square tubes; (g) 11' long with 3 1/2" square tubes; (h) 67" long with 6 x 3 tube; (l) 67" long with 6 x 3 tube; (j) 139" long I beam with 10" tubes; (k) 139" long I beam with 10" tubes (Stock #1663)
Depalletizer	Whallon filled can magnetic depalletizer, 47" wide x 52" long permanent magnetic head with rotary hydraulic turret, 48" wide x 8'6" long plastic belt accumulation conveyor with 15" wide x 8' 6" long plastic chain right angle single filer discharge conveyor, 60" working height, hydraulic power pack, control panel, 45" wide x 12'6" long 3 chain (36" outside chains) filled pallet infeed and discharge conveyor, fair condition - requires reconditioning (Stock #1580)
Destoner	SOLD!!! Van Mark Hydrolift / Destoner, Series 2000, pre-washes, all stainless steel construction, 10' vertical elevator, includes optional automatic rock remover, series 1500, all stainless steel, serial number 02003-072893, motor drives for elevator screw and rock remover (Stock #1713)
Elevator	PKC flighted hopper elevator, 16" wide x 12" long x 2" high flights, 7' discharge height, Intralox belt conveyor, 50" wide x 57" long hopper with stainless steel hand cleanout doors in hopper, spray heads, requires gearhead motor drive (Stock #1586)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Elevator	Dump belt/elevator, all stainless steel frame, 20" wide x 9' lower section, 5' elevating section, 2' discharge section, 48" discharge height, black Intralox belting with 4" high flight on 7" centers, drive not included (Stock # 1815)
Elevator	Mepaco auger elevator, 34" x 26" x 27" deep hopper with hinged cover, 12" diameter screw, x 15' long, 12" x 18" discharge, twin pneumatic lift cylinders, with 32" stroke with manual controls, stainless steel frame with castors, 2 piece, tilt covers, stainless steel control box, excellent condition, 5 horse power GH motor drive (Stock# 1809)
Elevator	Flighted belt elevator
Elevator	AMFEC auger elevator, hopper feed, all stainless steel construction, new arrival - call for information and images (Stock #1743)
Elevator	Flighted belt elevator
Elevator	Mepaco auger elevator, 34" x 26" x 27" deep hopper with hinged cover, 12" diameter screw, x 15' long, 12" x 18" discharge, twin pneumatic lift cylinders with 32" stroke with manual controls, stainless steel frame with castors, 2 piece tilt covers, stainless steel control box, excellent condition, 7.5 horse power GH motor drive 13' long (Stock# 1810)
Erector	Durable carton erector, model TGA-300-QCIR, serial number 110492E, capacity up to 30 cartons per minute, 120 VAC, requires 80 PSI/ 1 c.f. per cycle, carton size range is 8" to 20" long; 6" to 16" wide; 4" to 16" high, set up for bottom taping, table height 24" to 34"; this is a "right hand machine", 125 carton magazine capacity, sliding Lexan doors, controls (Stock #1789)
Extractor	Rietz extractor, model RE-15-K7E-328, serial number RE66530, all stainless steel product contact parts, heavy duty mild steel base painted with stainless steel paint, 40 HP 3/60/230/460 VAC motor drive, 30 RPM final RPM with 1 to 1 gear ratio, includes one orifice plate (choice of 6, 12 or 18 spoke - additional orifice plates available at additional cost) (Stock #1739)
Filler	FMC rotary piston filler, model C-210, 21 piston, 1.25" nozzles, worm \ star infeed, stainless steel product contact parts, 3 1/2" dia change parts, Hyde Park no-can\ no-fill controller, full infeed with worm, full discharge with takeaway conveyor, 1 3/4x x 1 1/2" intake ports, 1 1/4" return ports, 3 -1/2" pistons slightly pitted, with 5 HP drive, missing plunger top holder guides, good condition (Inv. # 001332)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Filler Infeed starwheel attachment for FMC model 21-G, includes seamer drive shaft, sprocket and clutch, good condition (Inv. # 000750)
- Filler Solbern rotary tumble filler, model PTF, all stainless steel constuction, (3) variable speed drive motors for drum roatation, can conveyor, shaker; heavy duty dual drum drive, buy as-is or reconditioned (Stock #1608)
- Filler FMC rotary granular filler, model 21-G, set 211 diameter cans, 2-1/4" dia. X 2" deep adjustable pockets, (2) accessory rings, brush attachment, seamer drive provision with clutch, painted base, vibrator track, no can/ no fill feature, 6' s/s frame table top chain feed conveyor with support leg, seamer drive sprocket with clutch, cleaned & painted, offered in "as-is" condition. Full rebuild available (Stock #1627)
- Filler Elmar/Phaudler rotary piston filler, model RP-6, serial number 55693, (6) 3-3/4" dia. pistons, square base, strait sided Teflon coated valve bodies with 1-1/4" dia. oversize port for large particulates, s/s product hopper, Teflon coated pistons, parts clean-up table for valves and pistons, worm/star infeed with short table top conveyor stub, counter-clockwise rotatation, discharge conveyor stub, self contained motor drive (Stock #1610)
- Filler FMC rotary piston filler, model C-120, serial number HA-2884 12 piston, set for 300 cans, rare 4" diameter pistons, all s/s product contact parts, USDA approved, s/s product hopper with plow for heavy viscous products, Teflon cut-off plate, star infeed, previously used with can chute (not included), seamer drive sprocket, no can - no fill, leg extentions (Stock #1611)
- Filler MBC auger filling system, Manicotti Machine, Cuts , fills, folds, model MA456, serial number WR788, 12" wide sanitary white belt conveyor 11' long, Reeves 1/2 HP 3/60/230/460 VAC variable speed drive, cone hopper, 5" diameter filling auger, 1-1/2" diameter fill nozzle, all stainless steel construction, NEMA 4 stainless steel control panel, emergency stop switch, excellent condition (Inv. # 001278)
- Filler Albro 12 head rotary granular filler. Model FP-12, all stainless steel product contact parts, Lexan enclosure, set for 401 dia. can with timing screw/starwheel infeed, starwheel discharge. The vacuum filling principle makes it ideally suited to handle semi and non free flowing powders to achieve a highly accurate and dust free fill, includes control panel, good condition (Stock #1536)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Filler	Tarten single block 8 piston 4 up, Salad dressing portion pack FFS machine, 2 piston per pack, 3/4" dia. x 3 1/2" long pistons, all stainless steel frame & product contact parts, full control panel with Fenwal digital readouts, 220 volt, good condition (Stock #1523)
Filler	Rotary granular 16 pocket volumetric filler, all stainless steel contacts and frame, 29" dia. bowl, 2-5/8" diameter x 2-1/2" deep cups, adjustable, Teflon product bowl scrapers, diverters, 1 HP gear reduced 208/220/440 volt drive, no in & out conveyor, adjustable legs on casters, good condition (Inv. # 001254)
Filler	Rice Lake bulk 2 lane scale filler, all stainless steel, 16" x 48" Intralox product feed conveyor, (2) lane 6" wide x 24" long scale feed belt conveyors, (2) scales 10" x 9" scale buckets, (2) stainless steel feed funnels discharging at 32" above floor, Optimization "Opti-mate" PLC controller with touch pad interface, stainless steel frame on castors (Stock # 1820)
Filler	FMC 24 valve rotary gravity filler, model 240, serial number CI-1751, set 300 diameter cans, starwheel infeed, stainless steel product contact parts, 2" diameter center vent valves, stainless steel hopper, good condition (Stock #1552)
Filler	Pfaunder rotary piston filler, 35 station, model RP-2135, serial number R584-3310, 1-3/4" dia. pistons, clockwise rotation, square base, timing screw to starwheel infeed, no container/no fill device, Teflon coated valves (look very new), pistons have O-ring and Teflon ring, with gear reduced drive, set for 10 oz. glass, good to very good condition, (Inv. # 001080)
Filler	SOLD!!! Key Pak vertical form, fill, and seal machine, model V350B, serial number 148, single tube, previously used for dispensing 16 oz of grated Parmesan cheese. Tooled for a 15" wide web width to make a 7" wide bag. This machine can accommodate up to a 25-1/2" web width for a 12" wide bag, printed film registration; includes Per-Fil stainless steel vertical auger filler, model PF-II, serial number 7221, 1 HP motor w/stainless steel feed hopper, good condition (Inv. # 001366)
Filler	FMC rotary piston filler, model C-150, 15 piston, 34.5 oz max. fill, set 300 x 407 can, worm/star infeed, no discharge stub, all s/s contacts, fair condition (Inv. # 001373)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Filler Pfaudler rotary piston filler, model RP-21, 21 station, 3-3/4" diameter pistons with o-ring and Teflon wear strip, Teflon coated strait sided valve bodies, counter-clockwise rotation, 6' long stainless steel infeed conveyor stub, timing worm/star infeed, set for 401 x 411 cans, all stainless steel product contact parts, stainless steel upper cam, painted steel lower cam, stainless steel shrouded square base design, 2" diameter product intake ports, 3/4" diameter discharge ports, seamer drive sprocket, cleaned, painted and in very good mechanical condition (Stock #1548)

Filler Lower cam (2 pieces) for FMC piston filler, model C-100, FMC part numbers C2110430/C2112270, new/ never used (Inv. # 000390)

Filler FMC rotary piston filler, type M&S, model 6-#10, 6 piston, set for 603 x 700 (#10) cans, s/s product contact parts, can chute infeed, 1.5" ports, 1" returns, no can no fill option, star infeed, has no cutoff plate, 6.25" dia. pistons, fair to good condition (Inv. # 000429)

Filler Elmar rotary piston filler, model RPE-328C, serial number EM89-1022, 28 piston, set 211 diameter, 2-3/4" diameter x 8" long pistons, counter-clockwise rotation, worm to star infeed, all stainless steel product contact parts, s/s clad base, good condition stock # 001415

Filler SOLD!!! Simplex twin piston in-line filler, model V-200, serial number 5932, (2) 4 1/4" pistons will fill from 11 oz. - 111 oz., adjustable fill volume, mechanical cam operation, stainless steel frame and product contact parts, swing cut-off valves for no drip filling operation, feed hopper not included, electronics and pneumatics need attention, otherwise good condition (Stock #1598)

Filler FMC rotary piston filler, model C-060, set 401 diameter, serial number CI-2630, 6 piston, 4" diameter pistons, can chute\ star infeed, optional star wheel discharge, no can - no fill, seamer drive sprocket, fair condition (Inv. # 001161)

Filler CRCO rotary granular volumetric filler, 26 pocket, set 3" diameter can, all stainless steel contacts, volume pocket measure 2-5/8" dia x 3-1/2" deep, adjustable, with product fill scrapers infeed bowl, 1 HP gear reduced drive, air operated product pusher, compactor at fill pocket, adjustable legs on casters, good condition , (Inv. # 001251)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Filler	EME/Engler rotary volumetric pocket filler, 26 pocket, all stainless steel construction, a continuous operation, rotary filling machine for piece-type and bulk-type foodstuffs into cans, jars and cartons, suitable for meat pieces or mixtures, fruits and vegetables, pasta and rice products, mixed products, etc., features include stainless steel and inert plastic construction for food use, designed for high filling rates over long periods of operation, variable volume adjustment, quick and easy cleaning of components in contact with product, 2 -1/2" wide x 2-3/4' deep pocket, infeed and discharge conveyor, currently set for glass bottle with 43 mm opening, - sold "as-is" Make Offer (Inv. # 001318)
Filler	St. Regis bulk powder filler Model 770 FF, serial number 722310, 12" butterfly valve, fair to good condition (Stock #1646)
Filler	FMC rotary piston filler, model C-060, set 300 diameter, serial number CI-2631, 6 piston, 3" diameter pistons, can chute\ star infeed, optional star wheel discharge, no can - no fill, seamer drive sprocket, fair condition (Inv. # 001162)
Filler	FMC rotary piston filler, model C-120, serial number NE-3039, table top conveyor infeed (infeed frame not included) NCNF, plow in hopper, 3" pistons, starwheel discharge, drive hand wheel, clutch, covers on hopper all stainless steel product contact parts (Stock #1704)
Filler	FMC rotary piston filler, M&S type, model 6-#10, serial number CO-2346, set for 603 x 700 cans (#10), 4" x 48" long table top chain infeed conveyor, dual starwheel infeed, powered disk discharge, Eurodrive variable speed drive, no can - no fill device, all stainless steel product contact parts, cams in fair condition, gears in good condition (Stock #1686)
Filler	FMC rotary piston filler, model C-100, serial number CI-2609, set 300 diameter cans, starwheel infeed, no can - no fill feature, drive sprocket, 3" diameter pistons, 1.5" diameter discharge ports, 1.25" diameter return ports, speeds from 100 to 250 CPM, maximum fill - 20.6 fl. oz., 10 gallon hopper capacity, all stainless steel product contact parts, USDA approved, good condition (Inv. # 000688)
Filler	Rotary granular 20 pocket volumetric filler, 40" diameter bowl, all stainless steel contacts & frame, 2-1/2" diameter x 2-3/4" deep pockets, adjustable, brush attachment, product diverters, 1 HP 220/440/3 drive, vari-speed, adjustable legs on casters, good condition (Inv. # 001253)
Filter	Tate Andale, twin cartridge filter, 150 PSI, stainless steel, model CF8, on stainless steel stand (Stock #1764B)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Filter	Tate Andale twin cartridge filter, 150 PSI, stainless steel, model CF8, on stainless steel stand (Stock #1764A)
Fitzmill	Fitzmill frame only for model D-6 comminuting machine, painted legs with castors, 2 HP 3/60/575 volt motor, good condition (Inv. # 000651)
Flowverter	CIP flowverter, connects (1) 2-1/2" bevel seated threaded fitting to (1) of 5 others in radius (Stock #1707)
Forklift	Baker narrow aisle electric forklift, model BRT-35, reach type, 24 volt (Stock #1829)
Forklift	Baker narrow aisle electric forklift, model BRT-35, reach type, 24 volt (Stock #1830)
Forklift	Baker narrow aisle electric forklift, model BRT-35, reach type, 24 volt (Stock #1828)
Forklift	Crown electric stand-up narrow isle reach forklift, model RR5220-45, serial number 1A210948, truck data TT341D38C8PSF-E-QB, 36 Volt electrical, max. capacity: 4600 pounds (Stock #1831)
Grinder	Hobart meat grinder, model 4146, 6" diam. plate, 24" x 46" long stainless steel top feed pan with infeed guard, 5 HP motor, 215 RPM, 3/60/230 VAC, mounted on stainless steel stand (Stock #1706)
Grinder	SOLD!!! Weiler grinder, model 6, gearbox model 1362-6HB, serial number 02201 all stainless steel, castors, hinged product hopper 48" x 44", tapers to 12" x 16" grinder opening, missing orifice plate and cover(will be included new from Weiler), stainless steel control box, very good condition (Stock# 1808)
Heat Exchanger	Cherry Burrell scrape surface heat exchanger, model 324, serial number 131, 3" diameter x 24" long barrel, 2" diameter mutator, plastic mutator blades, 1" inlet, 1.5" tri-clamp, discharge, temperature probe, 1" stainless steel media fittings, v-belt drive, 5 HP 3/60230/460 volt, switch, enclosure, mounted on mild steel platform with castors, good condition (Inv. # 000971)
Heat Exchanger	Feldmeier tube in tube heat exchanger, 4" diameter inner tube with Ti-Clamp fittings, 4 pass 20' long each, 6" diameter out tube with 3" diameter Tri-clamp media fittings, very good condition (Inv. # 001319)
Heat Exchanger	Mueller "Accu-therm" heat exchanger plates only, (27) brand new stainless steel plates, approximate dimensions: 16" x 36", new condition (Stock #1668)

**[Cuyler Food Machinery - Immediate Shipment!](http://www.cuylerfoodmachinery.com)**  
**[Call 585-265-0715 or cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Heat Exchanger	Stainless steel tube-in-tube heat exchanger, 2-1/2" outer (media) piping, 2" inner (product) piping, 4 tubes per set 20' long, 2 sets, Tri-clamp fittings, missing some loop fittings on one end (Stock #1651)
Heat Exchanger	American Precision Ind. heat exchanger, no tag, 2 1/2" in & out, 1/4 HP 115 volt fan motor, 20" x 20" tube area, good condition (Inv. # 001176)
Heat Exchanger	APV plate type heat exchanger, model SR-35S, serial number 14696, all stainless steel frame, 2 regeneration block with 1-1/2" Tri-Clamp fittings, approximately 80 TITANIUM plates total (Stock #1727)
Heat Exchanger	SOLD!!! APV plate heat exchanger, model SR-25, serial number 43xx81, 2-1/2" media fittings, 2 1/2" Tri-clamp product fittings, approx. 50 plates, stainless steel frame (Stock #1690)
Heat Exchanger	APV Crepaco vertical scrape surface heat exchanger 1 barrel unit on common base, electric driven, 3.75" diameter x 60" long, jacketed vessel 100 PSI, 75 PSI jacket, 1 1/2" media side, 2" product side tri-clamp, model V460WNNN, serial number N-1721 (Stock # 1785)
Heat Exchanger	L&A Engineering tube heat exchanger, serial number 3442, 14" diameter x 11' long tube, 8" vapor inlet. 2" tri-clamp infeed, 2 1/2 Tri-Clamp discharge, 2" Tri-Clamp condensate discharge, approximately (50) 3/4" id tubes, includes bin of fittings for vapor and product piping. (Stock # 1756B)
Heat Exchanger	APV Crepaco vertical scrape surface heat exchanger 2 barrel unit on common base, 19" x 56" base hydraulic driven, no power pack 3.75" diameter x 60" long, jacketed vessel 100 PSI, 75 PSI jacket, 1-1/2" media side, 2" product side tri-clamp, 18" x 37" frame, H4 drive, VT460, serial number 12T5453716 (Stock # 1784)
Heat Exchanger	APV Crepaco vertical scrape surface heat exchanger 4 barrel unit on common base, 19" x 56" base, hydraulic driven, no power pack 3.75" diameter x 60" long, jacketed vessel 100 PSI, size 460, serial number G-2338, 4VT46 (Stock 1783)
Heat Exchanger	L&A Engineering tube heat exchanger, serial number 3441, 14" diameter x 11' long tube, 8" vapor inlet. 2" tri-clamp infeed, 2 1/2 Tri-Clamp discharge, 2" Tri-Clamp condensate discharge, approximately (50) 3/4" id tubes, includes bin of fittings for vapor and product piping. (Stock # 1756A)
Holding Loop	Stainless steel holding loop 2" diameter tubes x 10' long, 16 passes, Tri-clamp fittings, stainless steel stand (Stock #1653)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Homogenizer	Cherry Burrell homogenizer, Stellar Series "SuperHomo" model SS-3000-SGR, 2 stage manual, 1-3/16" plunger diameter, 5000 PSI max., 900 GPH capacity, 50 HP motor, serial number 262127, stainless steel clad (Stock #1740)
Hopper	Vanmark Series 1500 metering hopper, 85 square feet capacity, twin auger discharge on bottom with baffle, receives bulk product then delivers a constant, metered amount of product to downstream processes, all stainless steel construction for durability, 65" x 97" long hopper (Stock #1822)
Hot water set	Hot water set with tank, stainless steel pump, tubular heat exchanger, frame, piping (Stock #1719)
Injector	SOLD!!! Inject-Star "New Twist" needle injector, model B1-100, all stainless steel, 16" w x 60" long product conveyor, 25 sets injector needles (stock# 1807)
Kettle	SOLD!!! Groen steam jacketed kettle, 20 gallon, model F-20, serial number 34537, NB code 650, 4551, hinged cover, 1-1/4" bottom outlet with valve (Stock #1669)
Kettle	Groen steam jacketed kettle, 60 gallon, model N-60, T-316 stainless steel construction, serial number 1979, 45 PSI, NB# 94972, 4" Tri-clamp center bottom outlet, mixer mount (Stock #1670)
Kettle	Hamilton steam jacketed kettle, 250 gallon, style A, serial number A6396, MWP 90 PSI, NB code serial number 2301, single motion scrape agitator, (no scraper installed), baffle, 2" center bottom outlet, hinged cover, stainless steel bridge 3 HP gear reduced motor drive, has welds on seams, painted legs (Stock # 1750)
Kettle	Mueller steam jacketed kettle, 2.5 gallon, stainless steel, National Board #184, serial number 84631, 3 legs pressure cover, 1-1/2" Tri-clamp center bottom outlet (Stock #1680)
Kettle	Agitator assembly for Groen 300 gallon kettle, double motion scrape surface agitator (full 100% side scrape), piloted design (52" wide x 45" deep), stainless steel removable bridge (66-1/2" long x 14-1/2" wide x 5" high - 64" mount centers), no motor or gearbox, good condition, sold "as-is" (Stock #1459)
Kettle	Groen 80 gallon steam jacketed kettle, model TA-80 SP, serial number 31317A, 100 PSI, single motion scrape surface agitator, 1-1/2 center bottom outlet, needs repairs to bottom jacket, 3 stainless steel legs, hinged covers, Eurodrive 1/2 HP. variable speed drive motor with jack shaft drive, covers (Stock #1705)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Kettle Hamilton steam jacketed kettle, 250 gallon, style A, serial number 3031-4, MWP 90 PSI, NB code 346, single motion agitator, (no scrapers installed), baffle, 2" center bottom outlet, hinged cover, stainless steel bridge, 3 HP gear reduced motor drive, has welds on seams, painted legs (Stock # 1751)
- Kettle Lee non-jacketed kettle, 100 gallon, stainless steel, serial number A1549A1, 3 stainless steel legs, 4" center bottom outlet, needs repair to bottom outlet (Stock #1693)
- Kettle Lee steam jacketed kettle, 150 gallon, National Board Code #2034, 90 PSI, serial number A-4695-A, side agitator mount, set up for ball valve, (not included) 2-1/2" center bottom outlet, has inside pitting in 4 places (Stock #1694)
- Kettle Lee single motion scrape surface steam jacketed kettle, 500 gallon, model 500D10S, NB Code #5248. serial number B-6753-A2, 100 PSI, lift covers, 3" Tri-clamp fittings with air activated ball valve, 4 stainless steel legs, stainless steel bridge, single motion scrape agitation (no motor) with secondary TA type agitator (no drive), welds on top of jacket (Stock #1696)
- Kettle Hamilton steam jacketed kettle, 250 gallon, style A, serial number 3031-1, MWP 90 PSI, NB code 343, single motion scrape agitator, (no scrapers installed), baffle, 2" center bottom outlet, hinged cover, stainless steel bridge 3 HP gear reduced motor drive, has welds on seams, painted legs (Stock # 1752)
- Kettle Groen 150 gallon steam jacketed pressure kettle, NEW 2004!, all T316 stainless steel construction, model 150 ERA, serial number 32600-1, National Board #9804, 100 PSI jacket, 40 PSI internal pressure, hydraulic tilt-out single motion scrape surface agitator, 3" Tri-clamp bottom outlet with flush ball valve, 6" Tri-clamp inlet on hinged cover, 2 HP Eurodrive gear reduced motor drive, with WFT-HT AC inverter speed control 5 to 30 final RPM, Honeywell DR 4300 recorder, excellent condition (Stock #1572)
- Kettle Lee 150 gallon steam jacketed double motion scrape surface kettle, serial number- A3902-A, 90 PSI, tilt agitator, 42" diameter x 34" deep, 3 painted steel legs, 2" bevel seated threaded center bottom discharge with manual plug valve, NEW Eurodrive 2HP fixed speed motor drive, otherwise kettle is reconditioned and pressure tested (approximately 2 to 3 week shipment time) (Stock #1631)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Kettle	Lee 125 gallon steam jacketed, double motion scrape surface kettle, serial number 624M, 90 PSI, tilt agitator/tilt kettle, 38" diameter x 34" deep, painted A-frame, 2" bevel seated threaded center bottom discharge, NEW Eurodrive 2HP fixed speed motor drive, otherwise kettle is reconditioned and pressure tested (approximately 2 to 3 week shipment time) (Stock #1630)
Kettle	Hamilton steam jacketed kettle, 250 gallon, style A, serial number 3031-3, MWP 90 PSI, NB code 345, single motion scrape agitator, (no scrapers installed), baffle, 2" center bottom outlet, hinged cover, stainless steel bridge 3 HP gear reduced motor drive, has welds on seams, painted legs. (Stock # 1753)
Kettle	Hamilton steam jacketed kettle, 50 gallon, style SA, serial number D-1821-1, National Board Code #6243, 90 PSIG MAWP @ 320 F, 1-1/2" dia. Center bottom outlet, single motion scrape surface agitator with stainless steel tilt-out bridge, nylon scrapers, Eurodrive 1 HP 3/60/230/460 VAC motor with 25 RPM gearbox, flush mount temperature probe, (3) stainless steel legs, excellent condition (Stock #1578)
Kettle	Groen 60 gallon steam jacketed pressure kettle, all stainless steel, 40 PSI max. working pressure, 2" center bottom outlet, National Board Code #23017, serial number GM857B, hinged dome top, chamber maximum working pressure 25 PSI, removable basket, good condition (Stock #1571)
Labeler	New Way labeler, model E5, hot melt glue pot & cold lap end paste pot, v-belt container drive, complete (Inv. # 001374)
Labeler	Krones Autocol 12 station single head pressure sensitive labeler, Norwood date coder, digital controls, new 1997, all stainless steel frame, Lexan enclosure, NEVER USED, includes 4 sets of color coded change parts for round, straight sided containers, huge new spare parts kit with tools, manuals, controls, NEW IN FACTORY CRATE! (Stock #1647)
Labeler	Label Aire pressure sensitive labeler system, includes (2) model 2111 Air Blow primary applicators, 10' long x 3" wide table top chain conveyor, control panel, previously used on gallon plastic jugs, fair condition (Stock #1567)
Labeler	New Jersey 315 "Mustang" vertical labeler, model 315-LI-197, no serial number, 4.5" plastic table top chain conveyor, worm feed, compression section, self contained label vacuum pick-up section, control panel, good condition (Inv. # 000952)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Labeler	New Jersey "315 Mustang 1" vertical labeler, model 315 RIG-479, s/n 985-4000, 4.5" wide s/s table top chain conveyor, 3 timing screw for sizes up to gallons, left to right operation, s/s clad base with Lexan guard, label feed with vibrator, control panel, vari-speed drive, good condition (Inv. # 000585)
Labeler	New Jersey 315 "Mustang" vertical labeler, model 315-LI-2xx, serial number 1182-4000, 4.5" plastic table top chain conveyor, worm feed, compression section, self contained label vacuum pick-up section, control panel, fair condition (Inv. # 000951)
Metal Detector	Metal detector 4" x 34' opening, 12" wide x 10' long belt conveyor with GH drive (stock# 1816)
Metal Detector	Lock belt type metal detector model Metalchek 9 MKII, type 9/HPS/100 kHz, serial number 8211, 17" wide belt x 72" long, 4" high UHMW side guides, adjustable tensioner, 6" high x 20" aperture opening, 4-1/2" clearance above belt, stainless steel frame, 32" infeed height; 54" discharge height; Leeson stainless steel motor, 1/2 HP 3/60/208/230/460 VAC with gear reducer, s/s enclosure for on/off switch, * Set and forget * One step set-up * Superb reliability * User-friendly operation * Easy to read display * Secure against unauthorized access * Continuous self checking gives 100% electronic module monitoring, excellent condition (Stock #1742)
Metal Detector	Lock metal detector, "Metal Chek" 30CXE, 7" x 20" opening, Intralox 20" wide x 6' long, belt conveyor, gearhead drive (stock# 1818)
Meter	Liquid Controls (LC) positive displacement meter, model M7-41800-3, serial number 248726, maximum capacity 100 gallon minimum 10 GPM, edible product/ cast iron construction, 2" NPT fittings, mechanical register indicates in pounds, with reset, register form #78700036, serial number 9404562712 (Stock #1683)
Meter	Liquid Controls (LC) positive displacement meter, model M7-41800-8, Code M2180, serial number 120196, 10 to 100 GPM, edible product/ aluminum construction, 2" NPT fittings, 150 PSI, seven digit resettable totalizer indicates in pounds, with electro-pneumatic reset valve, model A 2651, serial number PV 1257, with Viton seal, LC 2-stage air valve, model A2762, 115 VAC; Veeder-Root pulse transmitter (Stock #1728)
Mill	Gaulin lab colloid mill, model 2F, stainless steel, 2 HP, complete, good condition (Stock #1538)
Mill	Morehouse stone mill, model 830SS, serial number TD-9-600, all stainless steel construction, 8" diameter head, water jacketed frame, collet lock, 50 to 1500 gallons per hour, 25 HP motor, 3600 RPM, previously used in pharmaceutical, like new condition (Stock #001804)

**[Cuyler Food Machinery - Immediate Shipment!](mailto:cuyler@foodmachinery.com)**  
**[Call 585-265-0715 or cuyler@foodmachinery.com](tel:585-265-0715)**

Mixer Feeder	Acrison mixer feeder model 402X-400-600-BDF 1.5-F, serial number 97112-1, twin 10" diameter x 16" paddle mixer shafts, 1 horse power motor drive, 17" x 19" top flange, stainless steel cover, painted frame, with 32" x 30 x 38" deep, "weigh hopper" (Stock # 1786)
Mixer Feeder	Acrison mixer feeder, model 404X-2000-1300-BDF2.5-H, serial number 96103-01, 30" x 30", twin shaft 12" diameter mixing paddles, 53 x 45" stainless steel top mount hopper 48" deep, independent drives for each mixer shaft, auger discharge, mounted on mild steel pedestal base (Stock# 1782)
Motor	US Motors electric motor, 50 HP, 3/60/230/460 VAC, 128/64 amps, ID# V12V308R143R-1G216, frame 326TSC, type D, 1775 RPM, 1-7/8 diameter x 3-3/4" long shaft with keyway (Stock #1685)
Motor	Baldor electric motor, 50 HP, 3/60/230/460 VAC, 124/62 amps, 1755 RPM, 326TSC frame, spec 40H078W951H2, 1-7/8" diameter x 3-3/4" shaft with key unused (Stock #1681)
Pallet stacker	Whallon pallet stacker/destacker, 46" wide x 52" long pallet chamber x 60" deep mounted on a 9' 6" long (2) chain empty pallet conveyor, bi-directional motor drive, good condition (Stock #1595)
Patty Maker	Hollymatic "Powerform" hamburger patty former, model HS850A, self feeding product hopper, USDA approved, all stainless steel product contact parts, portable on castors (Stock #1832)
Peeler	Lyco 9 roll abrasive peeler, model 9000, serial number 0402908022, 9 peeler rolls, all stainless steel, hydraulic driven rolls, stainless steel hydraulic driven center end discharge auger, spray bar, good condition (Inv. # 001188)
Peeler	Vanmark abrasive peeler, model 27, 8 abrasive rolls installed, stainless steel center auger, stainless steel frame, electric motor drive, hopper infeed, fair condition (Inv. # 001189)
Peeler	Lyco abrasive peeler, model 2103, stainless steel frame, (7) heavy grit abrasive rolls, full length stainless steel metering auger, hydraulic drive motors on all rolls and auger, hopper feed, chute discharge, bottom waste chutes, internal spray bar, good condition (Inv. # 001268)
Pulper Finisher	Langsenkamp pulper, model 67H, E-Z adjust, serial number A177, mild steel closed tubular frame painted with high solids industrial stainless steel paint, 14" x 20" hopper infeed at 60" high, stainless steel discharge pan with 4" NPT discharge, height of pomace discharge 18", will equip with paddles or brushes, includes new perforated screen of choice, all new bearings, packing and belts, rated 30-60 tons per hour depending on product, 20 HP, 3 phase, 60 cycle 230/460 VAC motor, rebuilt 2008 with factory replacement parts, immediate shipment (Stock #1788)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Pulper Finisher	Langsenkamp pulper, model 140-A "E-Z adjust", pipe infeed, all stainless steel product contact parts, welded body assembly, 4 paddle assembly, screen holder assembly, e-z adjust wheel, painted steel frame with high solids stainless steel paint, stainless steel discharge pan with 4" NPT discharge fitting, 10 HP 3/60/230/460 VAC motor, belt drive, 10 to 30 tons per hour capacity depending on product, offered fully reconditioned (approx. 3 week shipment) (Stock #1596)
Pulper Finisher	Langsenkamp pulper, model 140-A "E-Z adjust", pipe infeed, all stainless steel product contact parts, welded body assembly, 4 paddle assembly, screen holder assembly, e-z adjust wheel, painted steel frame with high solids stainless steel paint, stainless steel discharge pan with 4" NPT discharge fitting, 10 HP 3/60/230/460 VAC motor, belt drive, 10 to 30 tons per hour capacity depending on product, offered fully reconditioned (approx. 3 week shipment) (Inv. # 001029)
Pulper Finisher	FMC paddle finisher, model 100, s/n HM-1809, stainless steel product contact parts, 4" Tri-clamp pipe feed, 4 paddles, new style cover, inspection doors, AHLSTROM .033 drilled screen, Baldor high efficiency 25 HP 3/60/230/460 volt TEFC motor drive, water cooled front Teflon seal, painted frame, stainless steel liquid discharge pan with 4" discharge fitting, stainless steel sub-frame, good condition (Inv. # 000775)
Pump	Waukesha positive displacement pump, model Universal, size 60, serial number 84835SS, 2-1/2" Tri-clamp, Eurodrive 7.5 HP 3/60/230/460 variable speed motor drive, 7.5 to 75 RPM, pump interior shows light wear, on base (Stock #1672)
Pump	Tri-Clover centrifugal pump, model C-218, serial number 17334-02, 2" inlet, 1-1/2" out, 10 HP 3/60/230/460 VAC motor on stainless steel frame (Stock #1675)
Pump	Sine Pump Sanitary Positive Displacement Pump, single sinusoidal rotor, model SP-3, serial number n/a, 3" Tri-Clamp, 7.5 horse power 1450 RPM motor, stainless steel product contact parts, USDA accepted (Stock #1779)
Pump	Waukesha positive displacement pump, Universal series, size 130, stainless steel construction, 2-1/2" Tri-Clamp fittings, 3 HP 3/60/230/460 VAC motor with gear reduced motor drive, stainless steel tube frame (Stock #1723)
Pump	Waukesha positive displacement pump, model Universal, size 60, serial number 124121, 2-1/2" Tri-clamp, motor drive, on base (Stock #1720)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Pump	APV Crepaco positive displacement pump, size R6R, serial number D-6062, 3" Tri-clamp fittings, 7.5 horse power motor, 630 RPM final output, on base (Stock #1780)
Pump	JMS all stainless steel piston pump, pneumatic operated, 10" diameter infeed tube, 10" diameter UHMW plastic piston and discharge tube, 12" stroke, includes Tri-Clamp mounted extruder plate on discharge, suitable for high volume discharge from tank or mixer with gravity feed, excellent condition (Inv. # 001296)
Pump	Waukesha positive displacement pump, model Universal 1, size 130, serial number 197981, 3" bevel seated fittings, 3 HP drive, stainless steel tube base, approximately .006 clearance in rotors (Stock.#1326)
Pump	Crepaco heavy duty positive displacement pump, model 700R, s/n R-22186, 4" bevel seated threaded fittings in/out, heavy duty outboard bearings, Reeves vari-speed drive, 7.5 HP, 83-830 RPM, 575 volt, on base, cleaned and painted, good condition (Inv. # 000317)
Pump	Tri-Clover centrifugal pump, model C-218MP18T-S, serial number S11223, 2-1/2" inlet x 1-1/2" discharge, Tri-clamp fittings, no impeller or clamp, 5 HP 3/60/230/460 VAC 1750 RPM motor (Stock #1684)
Pump	Crepaco positive displacement pump, model 6HD, serial number 13367, stainless steel, heavy duty, external outboard bearings, top shaft, 2-1/2" bevel seated threaded fittings, pump only, good condition, cleaned and painted (Inv. # 000103)
Pump	APV Crepaco positive displacement pump, size R4R, serial number F-5171, 3" Tri-Clamp fittings, 7.5 HP motor on common stainless steel plate base (Stock #1776)
Pump	Crepaco positive displacement rectangular infeed pumps (set of 3), model R2RI, serial number B5127, B5128 & B5130, stainless steel, 3/4" x 2-1/2" rectangular infeed, 1.5" bevel seat threaded discharge fittings, excellent condition (Inv. # 000107)
Pump	Tri-Clover stainless steel centrifugal pump, model C218MD18T-S, serial number G0629, 5 HP 3/60/230/460 VAC, 1750 RPM, 3" inlet, 1-1/2" discharge (Stock #1692)
Pump	Purity centrifugal pump, 2" inlet, 1-1/2" discharge, stainless steel, 5 HP motor, stainless steel base (Stock #1676)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Pump	Waukesha positive displacement pump, Universal series, size 134, serial number 219585-98, specifically designed to pump "unpumpable" products; such as dough, meat emulsion, puddings and cheese, that cause bridging and cavitation in conventional pumps, 316 stainless steel body, 3" x 9" rectangular inlet port, 3" Tri-Clamp discharge fitting, non-galling Waukesha "88" alloy rotors, maximum pressure: 200 PSI (13.8 bar), temperature range: -40° F. (-40° C.) to 300° F. (149° C.), 5 HP motor drive, 145 final RPM, good condition (Stock #1507)
Pump	Waukesha positive displacement pump, Universal series, size 130, serial number n/a, all stainless steel, 3" Tri-Clamp fittings, 5 HP motor drive, good condition (Stock #1508)
Pump	(2) Crepaco PD pumps model V6UR, 2 1/2" tri-clamp in/out, stainless steel industrial finish, 5 horse power motors, serial number A-0061 and C-9612, 450 RPM final output, load cell tank with (3) stainless steel control panel (Stock #1761)
Pump	APV centrifugal pump, serial number P4548-96, size 3" x 2", 5 horse power 1745 RPM (Stock #1781)
Pump	Crepaco P.D. pump, model 4TS serial number P-3171-96, 3" tri-clamp, Eurodrive 7.5 horse power, 255 final RPM (Stock #1766)
Pump	APV Crepaco PD pump, model R3BS serial number P2305-96, 3 horse power 103 final RPM on stainless steel cart (Stock #1768)
Pump	Cornell/Savage hydro food pump, model 4NHPF6K, 4", serial number E676, 13-1/2" diameter impeller, 3 HP 3/60/230 VAC motor with vari-drive, stainless steel vortex hopper with 36" wide x 36" deep x 7' long stainless steel tank connected with overflow and discharge fittings, mounted on painted frame, very good condition (Inv. # 001360)
Pump	Crepaco PD pump size R3B5, serial number P-5724-0597, 2" tri-clamp, on stainless steel base, 2 horse power 139 RPM (Stock# 1769)
Pump	Waukesha positive displacement pump, Universal series, size 130, serial number 225878-98, all stainless steel, 3" Tri-Clamp fittings, 5 HP motor drive, pump in poor condition (Stock #1420)
Pump	Cornell hydro food pump, 4" diameter inlet and discharge, model 4NMT-2R, serial number n/a, stainless steel casting, 3 HP motor drive, good condition (Stock #1438)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Pump	APV Crepaco PD pump size R3BS, serial number P-5723-0597, 2" tri-clamp 2 horse power 139 RPM final on stainless steel base (Stock #1770)
Pump	APV Crepaco PD pump, size R4R, serial number E-2233, 5 horse power 3" tri-clamp, stainless steel base (Stock# 1772)
Pump	Waukesha positive displacement pump, Universal series, size 130, serial number 135758, (cover s/n is 129406), all stainless steel, 3" Tri-Clamp fittings, 5 HP motor drive, good condition (Stock #1503)
Pump	Key/Cornell 8" hydro product pump, model 8NHPP-2, cast body, single port, stainless steel vortex hopper 5' long x 4' wide x 3' deep), 20 HP 3/60/230/460 VAC motor drive, fair condition (Stock #1440)
Pump/Emulsifier	Waukesha/Cherry Burrell shear pump/emulsifier, model SP4, serial number 221081-98, 2" bevel seated threaded fittings, 20 horse power motor 3500 RPM (Stock #1763)
Pump/Emulsifier	Waukesha/Cherry Burrell shear pump/emulsifier, model SP4,for continuous, inline and controlled batch coarse processing, serial number 91678, 25 horse power 3520 RPM motor (Stock # 1777)
Recorder	Anderson chart recorders, model EAT113A01, range 190 degrees F to 290 degrees F, Chart # 41800A23, 12 hr., 110 volt, electric probe (wire and sending unit not included), single pen, temperature only, very good condition, Price: \$500 each (Inv. # 001265)
Retort	Allpax horizontal retorts, 52" inside dia. x 21' long, 6 basket capacity, ASME rated at 90 PSI maximum working pressure, serial number 8515, National Board Coded, new 1991, carbon steel construction, single manual swing quick open doors, 6 Busse type baskets included (dimensions are 40-1/2" x 35" wide x 34" deep inside)( wheels are 19" on center), stainless steel clad insulation shown in images has been removed, includes steam and water control valves and Anderson chart recorder, control systems not included, good condition (Stock #1529) (We have 4 units in stock, price each - loaded)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Retort	Lagarde all stainless steel retort, 4 basket capacity, serial number 36240/1, SSF0046, National Board number 55, 1984, 72.5 PSI (5 bar) maximum pressure rating @ 300 degrees F (151 degrees C), 1190 gallon (4500 Liter) capacity, analog control package, water circulation system with pump, piping and valves, air pressure override controls, steam control valve, sensors, safety pop-off valves, 5 HP recirculation fan, insulated exterior, cam locking doors one end; DUE TO STANDARD RECERTIFICATION REQUIREMENTS, WE ARE SELLING THIS AS A VESSEL ONLY AS THE CONTROLS AND PLUMBING WOULD TYPICALLY BE REMOVED AND UPGRADED TO MEET CURRENT STANDARDS. WE WILL LEAVE THE CURRENT PIPING AND INSTRUMENTATION INSTALLED OR REMOVE IT PRIOR TO SHIPMENT AT YOUR REQUEST. (Inv. # 001406)
Retort	Berlin Chapman vertical lab retort, model VRD962V, serial number 31862, National Board Code #357, MAWP 20 PSI @ 260 degrees F, shell and cover thickness .250, steel construction, 6 lug, vessel interior measures 30" I.D. x 26-1/2" deep, single basket measures 27-1/2" I.D. x 22" deep, swing away dome cover, spreader pipe in bottom, 1" and 3/4" NPT fittings in bottom, 1" NPT fitting in side, 1" pressure relief fitting in top, (2) 3/8" NPT bleeder fittings in top, 4 legs, includes Anderson electric single pen chart recorder, pressure gauge, thermometer (Stock #1715)
Scale	Toledo digital platform scale, floor type, 5000 pound capacity, stainless steel 48" X 48", digital head, model 8142, serial number 4228825-4RR-N-1000, wash down (Stock #1644)
Sealer	Dixie Pak rollstock thermoforming vacuum packaging machine, model DP100SE, serial number 100.0624, all stainless steel, multi lane (Stock #1826)
Sealer	VC999 rollstock thermoforming vacuum packaging machine, model RS-4200, serial number The packaging is created by two film sheets, a lid film and a bottom film. The bottom film is usually tray-like or formed to the shape of the product. This film can be a flexible, semi-rigid or expanded film. A rollstock packaging machine enables the production of vacuum and MAP packaging and skinpacks or allows you to just simply seal your products. (Stock #1827)
Sealer	Mahaffy & Harder thermoform vacuum sealer, model 806 serial number 806-115 excludes vacuum pump (stock # 1819)
Seamer	American Can "Canco" vacuum can seamer, model 08C-VAC, serial number 38254, set on 502 diameter (up to 9" high can), 48 revolution seaming head, disk infeed, impact marker, motor drive, complete, fair to good condition (Inv. # 000713)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Seamer	American Can "Canco" vacuum can seamer, model 006-VAC, s/n 39002, set on 307 diameter (up to 6" high can), disk infeed, impact marker, motor drive, complete, fair to good condition (Inv. # 000711)
Seamer	American Can "Canco" automatic can seamer, model 08, serial number 6613, set for 603 x 700 (#10) cans, disk infeed, impact type cover marker (less type holder), atmospheric closure, fixed speed motor drive, good condition (Inv. # 000578)
Seamer	American Can "Canco" single head dry vacuum can seamer, model 006-VAC, serial number 39227, set for 401 diameter can, disk infeed, impact marker, motor drive, includes Ingersoll Rand reciprocating vacuum pump with motor, good condition (Stock #1531)
Seamer	Angelus automatic can seamer, model 59P-MSLF, serial number 1983540, set 603 x 700, full turret steam flow, paddle packer attachment, straight line infeed, no marker, random feed timing screw, good condition (Inv. # 001334)
Separator	Baader separator, model 695 CTW, serial number 12-5739-0695, hopper infeed, capacity approx. 4000 pounds per hour of raw material, although this machine was designed to separate raw fish or meat from bones, fins and skin, it was previously used on milled apples to make applesauce, all stainless steel construction, Eurodrive motor drives (Stock #1702)

For more than 40 years BAADER is known as a leading manufacturer for soft separators. BAADERING is a worldwide proven method for separating soft and solid components. Various products can be refined or recovered using this method: Desinewing and meat recovery from red meat, poultry and fish, Pulp and juice production from fruit and vegetable, depackaging of packed goods (food, cosmetics or the like).

The Baader method, called BAADERING:

A flexible squeezing belt takes the product towards a rotating perforated drum. Soft parts are gently pressed through the perforation of the drum and the residues are scraped off the outer drum shell.

The throughput values vary extremely in dependence of the hole size in the perforated drum, the type of feeding, the product and its pre-treatment (e. g. degree of pre-grinding), the feeding temperature, the selected pressure etc.

Shaker

Commercial vibratory dewatering shaker, serial number 6106823, 36" wide x 7' long, 6' dewatering section for 2 screens, 1 screen missing, other 3/16" square hole perforations, 2 HP motor, no Ajax shaker unit (Stock #1656)

Shaker

KEY ISO-FLO vibratory shaker\conveyor, model 421176-1, serial number 95-12069, vibratory "distribution shaker" conveyor, all stainless steel construction, 48"W x 72"L pan with a rigidized stainless steel bed, 65" flared infeed tapering for 24" to the 48" bed width, discharge end has an 18" deep "V" cut bias with "Sure-Lock" manual product diverter, 4" high sidewalls, above bed frame style and motor mount, equipped with "Iso-Drive" vibratory motor. Age 1995. Electrical: 1 HP, 208-230/460V - 3Ph - 60Hz, excellent condition (Inv. # 001364)

Shaker

Size Reduction	<p>Marel X-600 Laser Eye dual lane Intelligent Portioning Machine (IPM-II), includes dynamic in-weigher, laser vision portioning machine, post-weigher with individual digital platform scales and batching/grading system with chutes. (Stock #1832) The Intelligent Portioning Machine (IPM) combines conveying, weighing and built-in computer vision to produce accurately portioned food products. The IPM is equally well-suited for use in the fish, poultry and meat industries. All models use a computerized vision system to accurately measure the volume of the product and a cutting blade to cut the product into portions. On all models, even greater accuracy can be achieved by adding a special inweighing unit in front of the machine to weigh the product accurately before portioning. Similarly, a weight grader can easily be applied after the portioning machine to grade and/or batch the portions. The IPM integrates easily with MPS, Marel's production control system.</p> <p>The IPM is accurate, reliable and fast, hygienic and easy to clean. The benefits of using the IPM are faster, more accurate portioning, higher yields, more throughput, increased productivity and reduced labor cost. For additional information and specifications, visit <a href="http://www.marel.com/products/meatindustry/ProductID/102/">http://www.marel.com/products/meatindustry/ProductID/102/</a></p>
Skinner	<p>Grasselli meat skinner, all stainless steel construction, model RST520N, serial number R280087HX17, 20" wide on castors (stock# 1806)</p>
Slicers	<p>Spiralmatic stainless steel spiral ham slicer, model A-552203, controls, Lexan enclosures (stock# 1812)</p>
Slicers	<p>Spiralmatic stainless steel spiral ham slicer, model A-552203, controls, Lexan enclosures (stock# 1813)</p>
Slicers	<p>Spiralmatic stainless steel spiral ham slicer, model A-552203, controls, Lexan enclosures (stock # 1811)</p>
Suction wand	<p>Versamatic suction wand for tomato paste bag/box 3" in feed, 4" diameter wand, handles (2) stainless steel, 72" long (Stock #1708)</p>
Tank	<p>40 gallon single wall stainless steel tank, 23-1/2" diameter x 24" straight side, 6" x 12" bottom recess with 2" Tri-Clamp center bottom outlet and 1-1/2" Tri-clamp outlet bottom of side, 4 stainless steel legs, stainless steel cover with handle (Stock #1654)</p>

**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

- Tank Cherry Burrell 1000 gallon jacketed insulated dome top processor, all stainless steel, 3 heating/cooling zones, 70" inside diameter, 60" strait wall height, 12" cone bottom height, dual motion scrape surface agitation with full cone and side scrape and (2) 24" diameter 4 blade counter motion flat blade propellers, (2) Eurodrive 5 HP 3/60/230/460 VAC motor drives, dome top with manway, (2) 3" and (2) 1.5" Tri-Clamp top inlet fittings in dome, 150 PSI maximum pressure rating, model E-328-90, serial number 00-09-0670, 1991, National Board Code Coded (1) each 3" & 4" Tri-Clamp bottom discharge fittings, 3 zone cooling system has 1.5" flanged fittings, temperature probe provision, (4) stainless steel pipe legs, pick-eyes on top, stainless steel outer skin has some blemishes, interior has pressure bubble that may be repairable to use with scraper or may be used without scrapers - inspection required (Inv. #1451)
- Additional information: The Thermomixer series is designed to heat or cool fruit or pie fillings, thick gravies, salad dressings, or products with suspended particles. A large diameter axial-flow turbine in the center counter-rotates with an outer scraper agitator to assure rapid heat transfer and mixing and/ or agitation best suited to the product or process. These mixers are constructed with "Channelwall" jackets on the sidewalls and "Dimplewall" jackets on the bottom cone. The channels are divided into zones, which enable control of the amount of heating surface to be used. Partial batches are processed without danger of burn-on at or above the product level.
- Tank DWS 400 gallon single wall stainless steel tank, dish bottom with 3" Tri-clamp center bottom outlet, 4 legs, 56" dia. x 36" deep, stainless steel bridge, removable cover, 1 HP motor with 32 to 1 gear box, spray ball, (2) 3 blade flat blade propellers (Stock #1649)
- Tank Zero Mfg. 500 gallon all stainless steel horizontal cylindrical jacketed tank, model XL-500, serial number 1-12-24, 36" diameter x 8' long, full jacketed except insulated domed ends, center/top mounted air powered vertical top entering agitator with 8" diameter 3 flat blade propeller and 4" diameter 3 blade curved blade propeller, stainless steel shaft with support, level probe, mounted on stainless steel frame, excellent condition (Stock #1447)
- Tank Cherry Burrell 1000 gallon insulated dome top batch mix and blend tank, all stainless steel, 70" inside diameter, 60" strait wall height, 12" cone bottom height, single motion sweep agitation, Eurodrive 5 HP 3/60/230/460 VAC motor drive, dome top with manway, (2) 3" and (2) 1.5" Tri-Clamp top inlet fittings in dome, model E-322-90, serial number 00-09-0190, 1990, (1) each 3" & 4" Tri-Clamp bottom discharge fittings, (4) stainless steel pipe legs, pick-eyes on top, major damage to drive and dome top from hitting a bridge overpass, vessel body is in good condition - your inspection is required; images are before and after (Stock #1448)

**Cuyler Food Machinery - Immediate Shipment!**  
**Call 585-265-0715 or [cuyler@foodmachinery.com](mailto:cuyler@foodmachinery.com)**

Tank	Will-Flow jacketed vertical tank, 650 gallon, dimple jacketed @ 125 PSI, all stainless steel, includes primary piloted sweep agitator (scrapers may be installed optionally) with gear reduced motor drive; secondary 3 flat blade propeller agitator with drive, spray ball, stainless steel bridge, NB Code #4632, serial number 41128-2, Tri-Clover air actuated discharge valve (Stock #1712)
Tank	APV Crepaco jacketed mix tank, #F-5229, 90 PSI, NB hinged covers, stainless steel bridge, 6' deep x 48", full sweep agitator piloted 5" deep dish, side and bottom jacket and scraper, 7.5 horse power 17 RPM lower probe, various insert, 3" tri-clamp discharge. (Stock # 1757)
Tank	APV dome top processor, sweep agitator, 18" manway, level sensor, various inlets, 48" diameter x 50" deep, cone bottom, serial number E9985, 1 horse power, 11 RPM (Stock # 1758)
Tank	SOLD!!! APV Crepaco full scrape surface single wall cone bottom mix tank, 1200 gallon, model OCA, New in 1997, serial number K-19191, 70" dia. x 60" straight side x 24" deep cone, 4" CBO, 4 stainless steel legs, top entering full side and bottom scrape surface agitator with bottom pilot bushing, hinged covers, stainless steel bridge, excellent condition (Inv. # 001324)
Tanks	(2) stainless steel dome top tanks, ceiling hangers, 30" diameter x 26" deep, 12" hinged cover/opening, 3" tri-clamp "T" discharge, load cell and control panel included (Stock #1762)
Tenderizer	Hollymatic Tenderizer Model AMT 675, all stainless steel contact parts and mesh belt conveyor, 5 hp, 220/240 volt drive Shipping dimensions and weight: 88" long x 36" wide x 80" high, 1500 lbs. (Stock #1825)
Tri-Blender	Tri-Clover Tri-Blender model FM116MDG-MVS-S, serial number 425771-01 (Stock #1765A)
Tri-Blender	Tri-Clover Tri-Blender model FM116MDG-MVS-S, serial number 425771-01 (Stock #1765B)
Trimmer	Garrouette all stainless steel carrot butt trimmer, 2 lane, 14" wide Intralox plastic belt conveyor in center, 2 H.P. 3/60/575 volt gearhead drive, missing cutting knives and hold downs, good condition (Inv. # 000652)
Urschel	Urschel dicer, model H, serial number 661, all stainless steel frame and product contact parts, 10" feed drum, hopper infeed, chute discharge, all factory guards, 2 HP 3/60/230 VAC motor drive, priced with factory new crosscut and circular knife spindle to your size, fully REBUILT with new bearings, bushings, knives, zirc fittings, control panel not included (Stock #1576)

**Cuyler Food Machinery - Immediate Shipment!**

- Urschel Urschel Comitrol Processor, model MG-1300, serial number 1303, 30 HP 3/60/230/460 VAC motor, stainless steel frame, 13" enclosure, high speed spindle, pipe feed, 2" high "micro-cut" cutting head, 6 blade impeller, oil mist lubrication system with cover for main spindle lubrication, all stainless steel product contact parts, suited to free-flowing dry, semi-dry, and liquid product applications including textured vegetable protein, peanut butter, corn masa, cheese, fruits, and vegetables. Features continuous operation for uninterrupted production and simplified design for easy cleanup and maintenance; offered at a fraction of new cost, (Stock # 001424)
- Urschel Urschel Comitrol Processor, model 1500, serial number n/a, 40 HP 3/60/230/460 TEFC motor, all stainless steel frame, set up with standard stainless steel enclosure, electrical enclosure not included, reconditioned (Inv. # 000180)
- Urschel Urschel Comitrol Processor, model MG-1300, serial number 1298, 30 HP 3/60/230/460 VAC motor, stainless steel frame, 13" enclosure, high speed spindle, 3" pipe feed, 4" pipe discharge, 2" high 140 blade "micro-cut" cutting head, #66806 impeller, oil mist lubrication system with cover for main spindle lubrication, all stainless steel product contact parts, suited to free-flowing dry, semi-dry, and liquid product applications including textured vegetable protein, peanut butter, corn masa, cheese, fruits, and vegetables. Features continuous operation for uninterrupted production and simplified design for easy cleanup and maintenance; offered at a fraction of new cost (Stock # 001423)
- Urschel SOLD!!! Urschel Comitrol Processor, model 1700, serial number 2539, 30 HP 3/60/230/460 VAC motor with Sterns brake, stainless steel frame, 17" enclosure, high speed spindle, pipe feed, 2" high "micro-cut" cutting head, 6 blade impeller, oil mist lubrication system with cover for main spindle lubrication, all stainless steel product contact parts, USDA approved for use in meat, poultry facilities, suited to free-flowing dry, semi-dry, and liquid product applications including textured vegetable protein, peanut butter, corn masa, cheese, fruits, and vegetables. Features continuous operation for uninterrupted production and simplified design for easy cleanup and maintenance; Fully rebuilt and offered at a fraction of new cost. IMMEDIATE SHIPMENT FROM STOCK! (Stock # 001422)
- Urschel Urschel Comitrol Processor, model 2100, serial number 307, stainless steel construction, large hopper capacity and positive product feeding for cutting fresh and frozen tempered meat through a wide range of sizes, particle sizes ranging from coarse to fine emulsions are possible, 60 HP 3/60/460 VAC impeller motor, 5 HP auger feed motor, Note: this machine does not include the optional agitator in the hopper; stainless steel stand with stairs and platform, formerly operated in a USDA meat facility, includes #66755 Urschalloy cutting head and standard impeller (Stock #1641)

Urschel SOLD!!! Urschel Comitrol Processor, model 1700, serial number 2538, 30 HP 3/60/230/460 VAC motor with Sterns brake, stainless steel frame, 17" enclosure, high speed spindle, 3" pipe feed, 3" liquid discharge, 2" high "micro-cut" cutting head, 6 blade impeller, oil mist lubrication system with cover for main spindle lubrication, control panel with safety disconnects, all stainless steel product contact parts, USDA approved for use in meat, poultry facilities, suited to free-flowing dry, semi-dry, and liquid product applications including textured vegetable protein, peanut butter, corn masa, cheese, fruits, and vegetables. Features continuous operation for uninterrupted production and simplified design for easy cleanup and maintenance; offered at a fraction of new cost, (Stock # 001421)

Urschel Kibby slicer

Urschel Cari cauliflower segmenter and corer, all stainless steel construction, single hydraulic push arm, 3 segmenting heads with knives, heavy duty, manual load, hydraulic power pack not included, very good condition (Stock #1544)

Urschel Urschel dicer, model H-A, serial number 396, all stainless steel frame and product contact parts, 7" Feed drum opening, hopper infeed, chute discharge, all factory guards, 2 HP 3/60/230 VAC motor drive, priced with factory new crosscut and circular knife spindle to your size, fully REBUILT with new bearings, bushings, knives, zirc fittings, control panel not included (Inv. # 001258)

Urschel Urschel Comitrol Processor, model MG-1300, serial number 1069, 3/50/60/230/460 volt 30 HP motor, 3500 RPM, 13" cutting enclosure, micro-cut cutting head, 6 blade impeller, stainless steel platform base (Inv. # 000246)

Urschel Urschel slicer, model HS, serial number 683, stainless steel contacts, 7" feed drum, control panel, motor drive, stainless steel frame, no legs (Stock #1674)

Urschel Urschel Comitrol Processor, model MG-1300, serial number 1053, 3/50/60/230/460 volt 30 HP motor, 3500 RPM, 13" cutting enclosure, cutting head, no lubrication system, painted steel platform base, good condition (Inv. # 000245)

Urschel	Olney trimmer, model 4 for 3" - 4 1/2" onions or radishes, stainless steel frame and cutting blades, 1/3 Hp 3 phase, 50 cycle, 380 volt motor drives, 77" L x 28 1/2"W x 52 1/2" H overall dimensions. 41 1/2" feed height w/10" discharge height. Cutting blades automatically adjust to various size product within it's size range. Double open bars and the cutting blade control, and adjustable stainless steel guides center the product, reducing waste by insuring close trimming of stem and root ends regardless of the various length of the stems. The model 4 is designed to be fed at a rate of 50 per minute. (Inv.#1796)
Urschel	Urschel Comitrol, model 3600,
Urschel	Kibby slicer
Urschel	Kibby slicer
Urschel	Urschel model GK dicer, stainless steel frame, bronze contact parts, set 3/8 " dice, 2 HP motor drive
Vacuum Pan	Hamilton 400 gallon vacuum pan/cookers, model HV, 70 PSI jacket, vessel full vacuum, serial number 3035-1, NB# 349, manway, sight glass, probe provision, 2" NPT center bottom outlet, inline sampler, internal coil, mounted on stainless steel frame. (Stock # 1755)
Vacuum Pan	Hamilton 400 gallon vacuum pan/cookers, model HV, 70 PSI jacket, vessel full vacuum, serial number 3035-3, NB# 350, manway, sight glass, probe provision, 2" NPT center bottom outlet, inline sampler, internal coil, mounted on stainless steel frame. (Stock # 1754)
Valve	Tri-Clover Tri-Flo air-actuated sanitary shut off valve, T316 stainless steel, 4" fittings (Stock #400)
Valves/fittings	Lot stainless steel Tri-Clover and similar air operated control valves 2" fittings and under (see list for details) (Stock #1709)
VFD	Lot Danfoss variable frequency drive controllers, various sizes (6 units) (Stock #1778)
Wash Tank/Eleva	AK Robins wash tank elevator
Washer	Custom built all stainless steel #10 (603 x 700) can washer, 9' 4" long, horizontal roll-through type, w s/s centrifugal pump, re-circulation tank, high pressure top and bottom spray bars, s/s spray hood, on castors, excellent condition (Stock #1636)
Washer	Allen Kenasco all stainless steel wash tank/elevator, stainless steel flighted belt elevator, 24 inch wide x 12 feet long belt with catch hopper. (stock# 1430)

Washer	Olney flotation washer, model 60, serial number 698FW60, 60" wide tank, capacity 7 tons/ hr. on peas or corn, complete with Deming 6" x 6" pump, stainless steel flotation tank, recovery tank, discharge shaker with Ajax and motor, all welded construction, painted frame, good condition (Inv. # 000719)
Washer/Peeler	Vanmark washer/peeler, model 27, self contained hydraulic power pack, 8 rolls ( 5 brushes and 3 abrasive), spray head, internal paddle, all stainless steel frame, hydraulic auger discharge (stock # 1814)
Waste Water	Hycor waste water Hydroscreen, model HS-72, serial number 0012177B1, 72" wide, .020 parabolic screen, approx. 500 GPM capacity, stainless steel frame, inlet and discharge (Stock #1591) The Hydroscreen is a simple, highly efficient screen, designed for solid/liquid separation. Its operation is based on the Coanda effect. This means that the liquid to be screened forms a hydraulic attachment to the bars of the screen plate. These bars, with triangular section, have rounded angles and have a wave configuration, as opposed to being straight. Thus, the liquid passes through the slots while the separated solids stay on the front face of the screen plate.
Waste Water	Bauer hydrasieve, model 553F 7204247, serial number 40701, 72" wide horizontal fiberglass screen, .060 perforate, 10" inlet, mounted on 36" wide x 72" long x 42" deep mild steel tank with 8" discharge (Stock #1655)
Waste Water	Hycor "Disco-Strainer" gravity disc screen, model DS-484-AHC, serial number H-1910018, 4 disc sets, 150 micro screens (one with minor damage), all stainless steel, stainless steel spray bars, Eurodrive variable speed drive motor, very good condition (Inv. # 001079) The Discostrainer gravity disc screen is a cost-efficient solution to screening small particles: fibers, fines, plastic pellets and plastic fines, fibrous foods, peelings, labels, buffing dust.. Please refer to the OEM brochure for technical information and specifications
Waste water	Bauer type waste water hydrasieve, 36" wide x 24" high screen surface, all stainless steel construction, approx. 1/8" openings in screen, 4" flanged inlet x 6" flanged discharge (Stock #1626)
Waste Water	Rotostrainer
